

## I WANT ONLY YOU

Lately I've been chasing daylight  
Because I don't want to go without you  
Even in the night  
Even when it's cold you stay true

I wait for night time to come  
To bring you to me  
I can't believe I'm the one  
I'd stop the flow of time

I feel like no one could feel  
I must be dreaming  
I want this dream to be real  
I need this feeling

I can't stay without you, no, never  
And I hope this night will last forever.
